Buyer Member User Guide

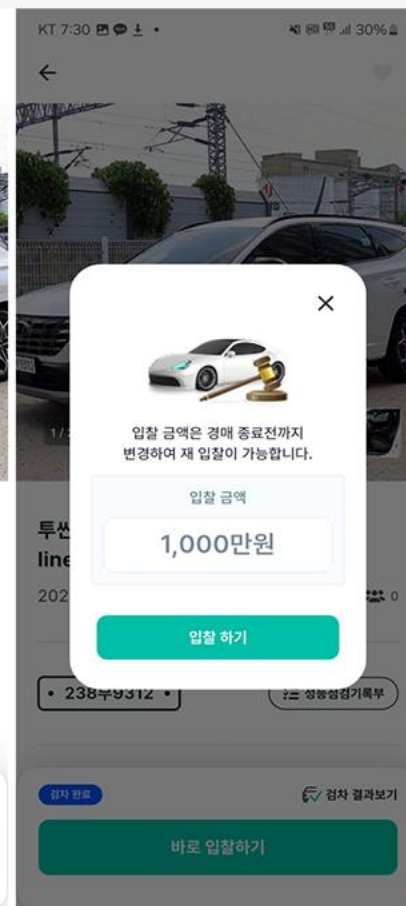

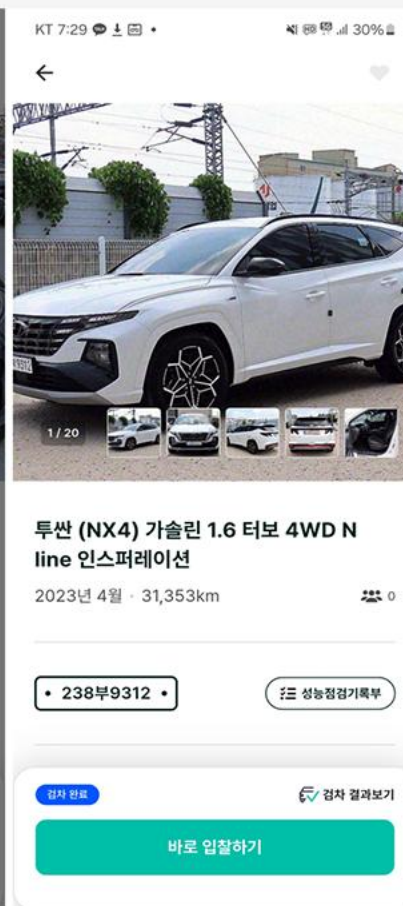

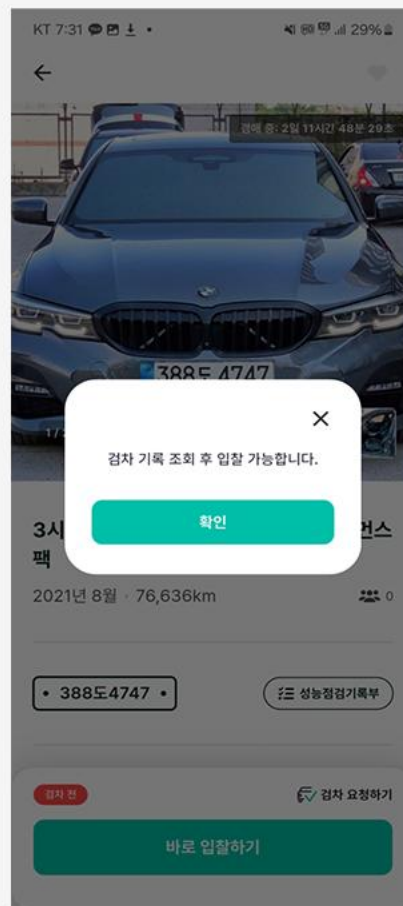

① Bidding on Auction Listings

1. Search for vehicles in the auction section and place your bid.
2. Bids can be revised before the auction ends,
but cannot be changed once selected, so please bid carefully.
3. When the auction ends, the dealer selects the winning buyer.
4. If selected, proceed to payment of the vehicle price.
5. For point top-ups, refer to the Notices section

② Bidding Tips

- Bid on multiple vehicles each day.
- Always bid within your realistic purchasing range.
- Only dealers can see your bid — low bids may be ignored.
- You must watch the inspection video (requires point payment).
- Bid amount must include the ₩440,000 selling fee.

Buyer Member User Guide

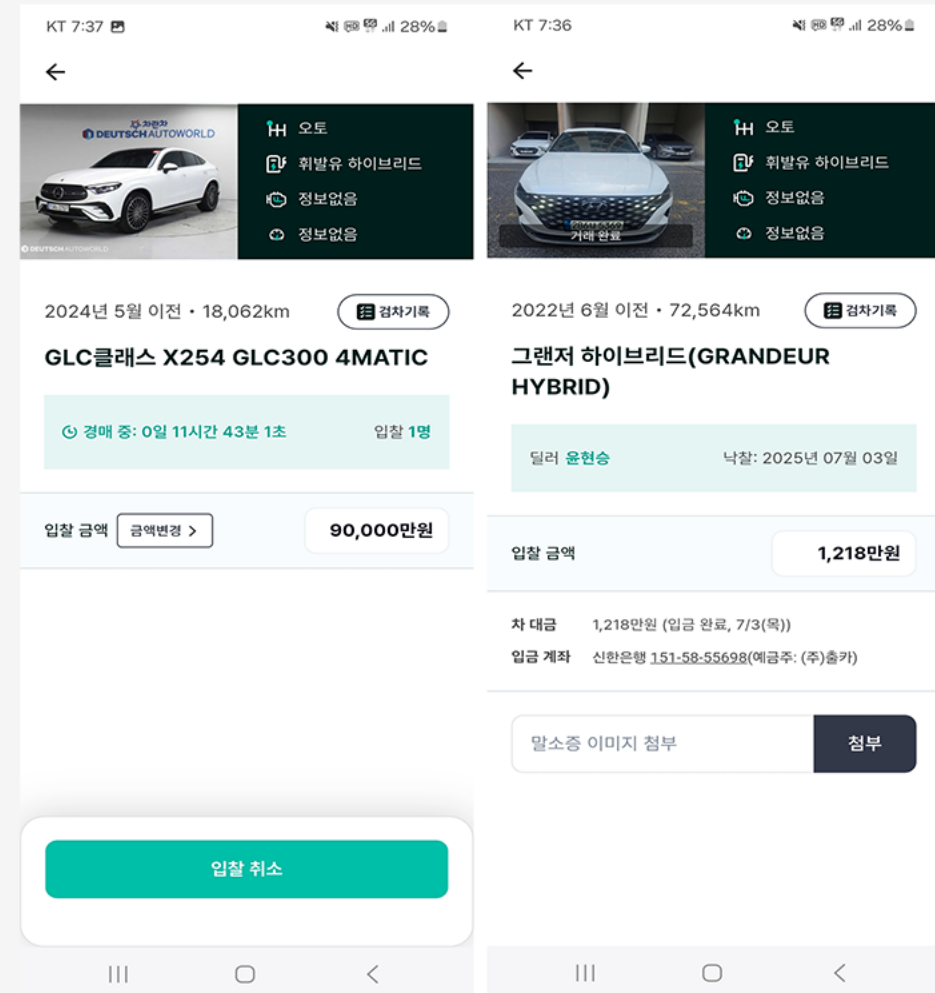

② Completing a Transaction

1. Once your bid is selected, the dealer's sales company account is provided.
- 2 Transfer the vehicle price + selling fee to the provided account.
3. Dealer confirms payment, then delivers the vehicle.
4. Upload the vehicle deregistration certificate to complete the transaction.

① Transaction Notes

- Buyer and dealer contact details are not disclosed.
- Deregistration certificate must be uploaded within 2 business days.
- Delays may result in usage restrictions

③ Posting a Reverse Auction Request

1. Submit a detailed reverse auction request to let dealers propose matching vehicles.
2. Provide clear and specific vehicle requirements.

① Reverse Auction Notes

- Some vehicles may not be registered in dealer systems; matching may take time.
- For smooth communication, contact info will be shared (reverse auctions only).

The screenshot displays the ChulCar app interface for posting a reverse auction request and viewing results. The left panel shows the request form with fields for vehicle color (차량 색상), seat color (시트 색상), production year/month (제작 년월), and additional requirements (추가요구사항). The right panel shows a list of auction results with details like model name (모델명), engine type (연료 종류), vehicle color (차량 색상), seat color (시트 색상), production year/month (제작 년월), and auction status (경매 중).

① Registering Auction Listings

1. Dealers can upload vehicles manually (if not auto-synced from Car Manager).
2. All listings undergo internal review before going live.
3. Dealers are liable for any false or inaccurate information submitted.

i Listing Notes

- Up to 5 vehicles may be listed.
- Use designated inspection centers for higher buyer engagement.
- Default auction duration: 72 hours.

The screenshot displays the ChulCar Dealer Member User Guide interface, showing the registration process for an auction listing. The interface is divided into several sections:

② Reviewing Bids & Finalizing Sales

1. Review bids and select the buyer.
2. Auction ends immediately upon selection.
3. Transaction finalizes once buyer payment & dealer fee are confirmed.
4. If only a deposit is paid, balance may take time.
5. Upload the deregistration certificate when available.

① Transaction Tips

- If mistakenly selected, the auction must be cancelled and reposted.
- Example: A ₩30,000,000 bid includes the ₩440,000 fee.
- Faster payment = faster transaction

Dealer Member User Guide

③ Reverse Auction Transactions

1. Only available to subscribed dealers (₩30,000/month).
2. See Notices for fee details.

- Vehicles may not be listed — expect some delay.
- Contact details are shared for this type of transaction.
- Prices are negotiable; both sides may propose.
